

Stroiprodukt
Kraichev

industrial repairs
joinery installation services

about the company

Stroiprodukt Kraichev is a Bulgarian family-owned company, established in 1989, which principal activity is construction work, including industrial repairs, installation services of machinery, metal structures and equipment.

In 1993 the company expands its activities to manufacturing windows and doors of polymeric materials and aluminum, building and maintaining a workshop for the assembly of doors and windows for private homes and public buildings. At present, the company has established partnership with suppliers of PVC and aluminum profiles from Profilink Bulgaria, Vivaplast Bulgaria, Rehau Germany, Schüco Austria and Roto Germany.

The company works with a team of nearly 50 specialists in the field of construction, assembly, engineering and trade, who take care and responsibility for the initial inspection and consultation, project, realization and maintenance.

At present, Stroiprodukt Kraichev is one of the leading companies in Northeastern Bulgaria for industrial repairs and installation of quality aluminum and PVC joinery.

equipment

Stroiprodukt Kraichev has a workshop for assembling of aluminum and PVC joinery, warehouses and specialized transport for delivery of the assembled doors and windows.

For construction and assembly activities and industrial repairs, the company works with Mobile cranes, Slings for cranes and aerial work platform with telescopic stern stick, 18 meters height.
